Outreach presentation at the Faculty of Tourism April 8th, 2009

Our first outreach in April was held at the Faculty of Tourism in Skopje. In front of about 70 students, the American Corner Skopje staff talked about the opportunities the American Corner has to offer, how to become a member, the resources and events, etc, but also about the Educational Center, the services it offers and studying in the US.

Outreach presentation at the "Josip Broz – Tito" high school April 14th, 2009

The second outreach in April was held at the high school "Josip Broz-Tito" for about 35 students, studying as part of the international program of the school.

Our guest speaker was again Jordan Calhoun, a Peace Corps Volunteer, who already held several successful presentations at the American Corner Skopje.

After the usual introductory presentation about the AC Skopje and the Educational Center made by the AC Staff, Jordan talked about American Football.

The students loved this presentation because they were not familiar with American Football and the rules of this game, although they knew about the Super Bowl. Jordan also brought a visual aid: a paper football he made himself out of newspaper. He then asked for two volunteers and demonstrated the difference between American Football and Rugby, one throw/run at a time, play by play.

At the end, Jordan introduced the game "Paper Football" which he claimed to have played every day after school.
